Exhibit L

__AMERICA'S ___ LONGEST-LASTING PICKUPS.

> RAM 1500. POWER, PERFORMANCE, EFFICIENCY. From the off-road worthiness of Ram Rebel® to the sophistication of the Ram Limited, Ram 1500 delivers uncompromising comfort and superb capability-backed with a raft of best-in-class and class-exclusive features. See more at RAMTRUCKS.COM

SOME STRENGTHS YOU COUNT. OTHERS YOU WEIGH.

Leadership is defined by the just-right combination of brains and brawn-and the strengths of Ram 1500 deliver everything a full-size pickup should offer. This is where powertrain availability includes breakthrough innovations like the available 3.0L EcoDiesel V6, the legendary 5.7L HEMI® V8-and the class-exclusive3 standard TorqueFlite® 8-speed automatic. It's where suspension technology also achieves elite status, and where comfort and electronics are at the top of the game. For more, click over to RAMTRUCKS.COM

THE FRAME. It's all no-nonsense from the get-go: high-strength steel core with eight ultratough crossmembers. Hydroformed tubular front frame unit, also of high-strength steel. In areas where heavy steel isn't needed, our engineers incorporated down-gauged yet stronger steel-a smart decision helping contribute to the fuel-sipping performance.

THE BOX. Also constructed with high-strength steel, this capable cargo area is illuminated with the CHMSL-mounted light and available rear LED Bed Lighting. Of course, what distinguishes Ram pickups is the brilliance of the available RamBox® Cargo Management System, a solution that completely changes the rules about hauling and storing.

TOWING LEADERSHIP. You expect superior performance-and Ram 1500 aims to deliver it. Towing is one of many critical areas. This structural rear bumper is rated for Class III towing, so right off the line, your Ram 1500 will fluently handle trailers up to 5,000 lb, when properly equipped.

Take the next step-and magnify your towing capability. The available factory-installed Class IV hitch receiver bolts directly to the high-strength steel frame, and when properly equipped, will take on trailers up to 10,620 lb. The trailer connector is easily accessible, with an adjacent lamp making night connections a breeze. All models provide a 4- and 7- pin connector as standard equipment.

FUEL EFFICIENCY. Your Ram 1500 was designed to endure tens of thousands of miles and countless years of service, so getting the most from every drop of fuel is vital.

Contributors to fuel efficiency include a sculpted aerodynamic body that glides through air, and available assets like wheel-to-wheel side steps and Active Grille Shutters.

But here, powertrain engineering is key. Proficient engine development includes the available 3.0L EcoDiesel V6, and the gas-powered workhorses: the 3.6L Pentastar® V6 and the legendary available 5.7L HEMI® V8, with its fuel-saving Multi-Displacement System (MDS) turning the mighty V8 into a gas-sipping 4-cylinder during highway cruising.

COMFORT. No matter which Ram 1500 you're choosing, occupant comfort is key. Ram delivers.

Interiors of every model reflect thoughtful and intuitive design. From window controls and door handles to the dashboard-mounted Rotary Shifter for the TorqueFlite® 8-speed automatic, all buttons and controls are driver- and passenger-friendly. Storage in every model is abundant, with an available fold-flat cargo load floor; Crew Cab models also feature convenient in-floor storage bins.

From the unique tire-tread pattern on the seats of Ram 1500 Rebel® to the premium leather interior of Ram 1500 Limited, this is where style and comfort never take a back seat

Ram 1500 was a pioneer in many areas of today's pickup. Among them: the class-exclusive³ multilink coil spring rear suspension. The class-exclusive³ available Active-Level™ Four-Corner Air Suspension System with its five-mode operation. The best-in-class³ available

INNOVATION. If our strongest suit is overall

ace of diamonds up its sleeve.

capability, innovation is where Ram 1500 keeps an

RamBox® Cargo Management System. The introduction of the available EcoDiesel V6 powerplant. The best way to see Ram 1500 innovation in action?

Simply experience it for yourself—in a test drive.

Properly secure all cargo.

RAM 1500: WHERE GENIUS AND STRENGTH RUN DEEP.

- **THE TOW** Pulling a trailer? These numbers work: a structural rear bumper that's rated for Class III towing, built to easily handle trailers up to 5,000 lb when properly equipped. The available factory-installed Class IV hitch receiver bolts directly to the high-strength steel frame to bring the towing capability up to 10,620 lb when properly equipped.
- **2 THE CLASS-EXCLUSIVE³ MULTILINK COIL SPRING REAR SUSPENSION** Without exception, our competition employs leaf-spring technology. So leave it where it belongs—far behind you. The Ram 1500 employs a coil spring rear suspension that offers a degree of strength and durability the others just can't match. Count on more lateral stiffness and greater vehicle control; ride quality is so good, it's the preferred spring configuration for rail cars.
- **THE FRONT FRAME UNIT** Working with the high-strength steel frame are eight tough crossmembers; we also employ a hydroformed tubular front frame unit, also comprised of high-strength steel. It's an ultra-stiff component that further reduces weight—helping improve fuel efficiency while providing exceptional ride characteristics.
- **3 THE FRONT SUSPENSION** Your 2017 Ram 1500 utilizes proven technology: our short-/long-arm suspension with coil springs and stabilizer bar minimizes camber and toe change. You'll measure it in road manners—and in the savings that can accompany reduced tire wear.
- **THE STEEL** Reducing weight contributes to fuel efficiency. Where heavy steel isn't required, Ram 1500 engineers opted to use down-gauged but stronger steel. Count on a full-size tough truck with weight savings that help deliver fuel-sipping performance.
- **THE SHOCK ABSORBERS** Ram 1500 engineering leaves no stone unturned—except the ones you're riding on. These shocks are tuned for optimum ride balance, with more resistance during upward wheel motion than downward. Count on a smooth ride with reduced harshness, notably on less-than-perfect road surfaces.
- **② THE BED** In contrast with some of our competitors, all cargo beds on 2017 Ram 1500 models are constructed using tough high-strength steel, ensuring top-tier capability and confidence when hauling.

THE CONNECTION Connecting the trailer at night is easy: an adjacent lamp provides ample illumination. And all Ram 1500 models provide a 4- and 7-pin trailer connector, a design that accommodates virtually every trailer wiring connection out there.

THE AERODYNAMICS Contributing to the fuelefficient performance and quiet ride, are exceptional aerodynamics. Wind-tunnel testing and thoroughly refined windshield shapes with aero-formed side mirrors enable Ram 1500 to glide through air.

DEALER EPROCESS

THE ELECTRIC POWER STEERING Advantages: parasitic losses are lower, helping improve efficiency. Operation is quieter. Speed-proportional assist ensures superb highway road feel with minimal effort in parking lots. And zero hydraulic fluid means no time or expense to monitor or replace it.

THE ACTIVE GRILLE SHUTTERS This available asset has proven itself beyond doubt. The shutters instantly adapt to speed, load and engine needs to provide ideal engine cooling, while significantly reducing aerodynamic drag to help improve the fuel efficiency for Ram 1500 models.

RAM TECHNOLOGY STARTS WITH SAFETY & SECURITY.

Drive a 2017 Ram 1500, where road manners, comfort and capability all ride hand in hand with safety and security. The indispensable Electronic Stability Control (ESC)⁴ System (standard on every model) is key. The Ram 1500 ESC⁴ System starts with these fundamental assets:

- ▶ All-Speed Traction Control helps regulate wheel spin. If slippage occurs during acceleration, automatic throttle control will reduce torque; in extremes (like accelerating from pavement to ice), it will apply the brakes and reduce the engine power to maintain control.
- ▶ Trailer Sway Damping⁴ detects yaw and applies selective brake pressure on the tow vehicle's opposite side to counteract and reduce the sway.

The Ram 1500 braking system features optimized pedal travel to provide quick power assist. Rear wheel-speed sensors are positioned for protection against road elements. ESC⁴ features multiple assets for braking; it even includes vehicle control when stationary. These encompass:

- ▶ Antilock Brake System (ABS). Monitoring each wheel's speed, the Ram 1500 ABS design also incorporates back-up braking should one of the two braking circuits be compromised.
- ▶ Electronic Brake-Force Distribution regulates brake pressure from front to rear to minimize stopping distances.
- ▶ **Ready Alert Braking** senses the moment when the driver's foot is lifted from the accelerator; it applies an imperceptible brake force to ensure that pads and discs are lined up should an emergency stop be required.
- ▶ Rain Brake Support automatically and seamlessly activates when the driver turns on the windshield wipers; all brake calipers gently pulse against their respective rotors to remove water from the pads.
- ▶ **Hydraulic Boost Compensation**. Should a failure occur in the vacuum brake booster or any related line (e.g., a rupture from tough off-roading), the brake controller will run the ABS pump; our system is so sophisticated, it conveys the problem to the driver. Most importantly, the brakes perform as normal until the failure is serviced.
- ▶ Hill Start Assist. When the vehicle is angled on hills or inclines, this system keeps your Ram 1500 stationary for two seconds after the brakes have been released or until the accelerator is depressed.

ParkSense® Front and Rear Park Assist5

This available feature uses integrated sensors with ultrasonic waves to detect objects as far as 47 inches away from the bumpers. Readouts located in the gauge cluster display team up with audible chimes to notify the driver of proximity to front and/or rear objects.

NAV ASSIST | REAL-TIME VEHICLE INFO | VEHICLE SYSTEMS MONITORING | CUSTOMIZABLE

DRIVER INFORMATION DISPLAY

Your Ram 1500 truck is a rolling powerhouse of knowledge, instant information and state-of-the-art communications technologies. And it's all in your command, starting with the available and customizable full-color seven-inch Driver Information Display with some 34 menu options along with detailed graphics that convey real-time vehicle information.

Select models inform you with a six-ring instrumentation cluster, and you can always move up to the largest available 8.4-inch touchscreen media center. Add totally leading-edge telematics through Uconnect, and you've got it all: tunes, info, web content, vehicle control. That's Ram 1500.

IT'S ALL ABOUT HANDLING, COMFORT AND EFFICIENCY.

THE ACTIVE-LEVEL FOUR-CORNER AIR SUSPENSION SYSTEM

IT'S ALL ON THE LEVEL. ACTIVE-LEVEL, THAT IS. The available class-exclusive³ Active-Level Four-Corner Air Suspension System is driver-selectable for the Off-Road and Entry/Exit Modes, and kicks in automatically for Aero Mode when cruising. Count on improved fuel efficiency, responsive road manners and fantastic ride and handling.

Dashboard-mounted for easy access, the integrated switchbank enables instant control over the five modes.

Active-Level technology at work: it automatically counteracts when weight is added to the bed, maintaining a constant and level profile

AGGRESSIVE

+2.0 in.

OFF-ROAD 2 MODE Provides impressive ground clearance for the path or trail and generous angles for approach, departure and breakover.

FREEWAY

-**U.6** in.

AERO MODE Automatically lowers the vehicle at highway speeds, reducing aerodynamic drag and "body roll," and improving fuel efficiency.

NORMAL RIDE HEIGHT

For everyday driving. Provides the most comfortable balance of ride and handling.

OFF-ROAD

+1.2 in. front; +0.9 in. rear

OFF-ROAD MODE Provides outstanding ride balance, with an extra degree of clearance when off-road scenarios are less severe than those warranting Off-Road 2 Mode.

ENTRY/EXIT

-2.1 in. front; -1.7 in. rear

ENTRY/EXIT MODE Lowers the vehicle when stopped, for easier entry/exit, loading/unloading and convenient trailer hooking/unhooking.

REGULAR CAB 8' BOX 7,270-LB MAX TOW CAPACITY 1,880-I B PAYLOAD CAPACITY

QUAD CAB 6'4" BOX 7,600-LB MAX TOW CAPACITY

1.820-LB PAYLOAD CAPACITY

AN ENABLER: TORQUEFLITE® 8-SPEED

STANDARD FOR EVERY RAM 1500 ENGINE. It was created with a dual-purpose mission: provide impeccable performance from highway cruising to heavy hauling—while contributing to those impressive figures that, when paired with the available 3.0L EcoDiesel V6, give Ram 1500 the best fuel economy of any full-size pickup? It accomplishes both—and even provides steering wheel-mounted buttons for manual gear selection.

exclusive³ available Active-LevelTM Four-Corner Air Suspension System delivers five modes of operation. Crucially, it makes trailering a breeze, simplifying ball/hitch alignment. The bigger picture? The system counteracts weight from trailering/hauling, maintains an even and level profile when loaded, and keeps constant the rake from the front end to the rear of the trailer.

The dash-mounted integrated switchbank lets you raise or lower the vehicle through the available Active-Level Four-Corner Air Suspension System, and also lets you control the available trailer brake gain while towing.

DOZENS OF MENU OPTIONS include data about

the available trailer brake controller. This reading signals

that the brake is at 65% of total operation with a 10%

gain. You'll control the gain that's right for the terrain with the center stack-mounted trailer brake controller.

STAY AHEAD OF THE GAME. LOOK BACK. Make towing a cinch. Available ParkView® Rear Back-Up Camera⁵ with Active Grid Lines is a natural for aligning the trailer ball with the hitch.

Trailer Brake 65%

COVER EVERY ANGLE. Monitoring your trailer is critical. Extra-wide available trailer-towing mirrors on each side are the answer. Measuring a substantial 7 x 11 inches, they offer a maximum view, with a wide-angle mirror for peripheral traffic.

CARGO MANAGEMENT FOR WORK AND PLAY.

THE BENCHMARK FOR CARGO VERSATILITY.

THE AVAILABLE RAMBOX® CARGO MANAGEMENT SYSTEM. Ram 1500

pioneered it, and it's still the best-in-class³ Cargo Management System. The bins and rails are so versatile, they handle a wide variety of authentic accessories from Mopar®.

STOW YOUR GEAR

STOW IT, STORE IT, LOCK IT Lockable, drainable and illuminated, the two side boxes carry it all: tools, sports equipment—even iced beverages. They also accommodate numerous Mopar® accessories for work and play.

EXTEND & DIVIDE

COLLAPSIBLE AND RIGHT AT HAND: THE BED EXTENDER/DIVIDER

Create compartments for specific cargo, or extend space to the open tailgate. With a smart, thin profile, it's easily stored at the head of the bed when not in use.

LIGHT THE BED

TWO POINTS OF LIGHT Augmenting the CHMSL-mounted cargo bed light, these side bed-mounted LED lights are perfect for night loading, and operate without tonneau cover adjustment (if so equipped).

SECURE THE LOAD

CARGO RAIL SYSTEM WITH ADJUSTABLE TIE-DOWN CLEATS Make sure it's all safe and secure. Cargo rails also accommodate numerous accessories from Mopar, while the four movable cleats ensure that your cargo stays where it's supposed to.

RAMBOX® CARGO MANAGEMENT SYSTEM: A COMPREHENSIVE SOLUTION THAT GIVES YOU ABUNDANT STORAGE (YET LEAVES SPACE TO HAUL A LOAD OF BUILDING MATERIAL).

TECHNOLOGY: ELEGANTLY AND POWERFULLY SIMPLE.

ITS VERY NAME DEFIES CONVENTION. This customized pickup shows where Ram 1500 is heading. Rebel is a spacious Crew Cab with an interior featuring a unique "tire-tread" embossed treatment on the two-tone seats. Outside, look for an aggressive Ram centric grille and tailgate, while underneath, the standard Active-Level™ Four-Corner Air Suspension System rides with a one-inch height increase. Power depends on configuration: 3.6L Pentastar® V6 for 4x4 models, and 5.7L HEMI® V8 standard on 4x2 and available for 4x4 Rebel. The final touches add tow hooks and monster 33-inch Toyo Open Country tires mounted on 17-inch aluminum wheels with Matte Black pockets.

AT-HAND CONVENIENCES. The center stack is custom-made for tomorrow's technodude, with generous storage, sculpted cup holders and a dedicated spot for a smartphone. Dashboard and instrument-panel switches are intuitive, and here, Red accents are used to highlight eye-catching details and touchpoints throughout the cabin, including seats with subtle stitching.

A REBEL. AND YET SO REFINED, IT REDEFINES. It comes off the line with built-in attitude-and an interior that combines a sense of power with an advanced degree in aesthetics. Check out the standard Rebel® premium cluster with 7-inch Driver Information Display, Uconnect® 8.4-inch touchscreen radio, brushed aluminum touches and full-size floor console.

with optional chrome bumpers and body-color wheel flares; below, the signature Ram tailgate with standard chrome and available Black Ram logo.

NO LUXURY HAS BEEN SPARED. Driving a Ram 1500 Limited removes all doubt as to who's in charge. This Black interior with premium leather houses all that's good: heated/ventilated front seats and heated rear seats, premium wood/leather-wrapped heated steering wheel, Platinum Chrome accents and a Uconnect® 8.4-inch touchscreen radio that includes Navigation.

SIX-PACK

▶ THE VIEW IS ALWAYS STUNNING. The refined Ram 1500 Laramie® interior: standard seating for six, with heated and ventilated leather-trimmed driver and front-passenger seats, heated steering wheel, power pedals with memory, premium 10-speaker audio system and Dual-Zone Automatic Temperature Control.

THERE'S A BRIGHT NEW STAR ON THE HORIZON.

Powered by the 3.6L Pentastar® V6, the new 2017 Ram 1500 Night shines with its Black projector headlamps, Black grille and badges, heated deluxe cloth/vinyl high-back front bucket seats with 10-way power driver seat, heated and leather-wrapped steering wheel, Uconnect® 8.4-inch touchscreen radio and authoritative semi-gloss 20-inch aluminum wheels in Black. Further factory options include heated/ventilated leather-trimmed power high-back front bucket seats, the 5.7L HEMI® V8, Sport performance hood, dual exhaust, RamBox® Cargo Management System and Black tubular side steps, while Mopar® offers the Cat-Back Exhaust, Cold Air Intake and Ram Air Kit. Head to RAMNIGHTCATBACK.COM to hear more.

optional 5.7L HEMI® V8), TorqueFlite® 8-speed automatic and available Sport performance hood level the playing field. To that, add bifunctional projector headlamps, body-color full front fascia, grille and rear bumper, the Luxury Group and Heated Seats and Wheel Group, available Class IV hitch receiver and 20-inch polished aluminum wheels.

▶ PURE CAPABILITY, NATURALLY. Meld functionality with comfort, with the 3.6L Pentastar® V6, Uconnect® 8.4 with Bluetooth,® fold-flat load floor (on Big Horn Quad Cab® and Crew Cab models), power 10-way driver's seat and ParkView® Rear Back-Up Camera⁵-all riding on 20-inch chrome-clad aluminum wheels.

CUSTOMIZE YOUR RAM 1500.

Authentic Ram parts and accessories by Mopar go far beyond simply giving you a means to personalize your Ram 1500 they give you nearly unlimited potential to ramp up comfort, convenience and performance.

Mopar accessories cover it all. You can enhance towing capability, ease getting in or out, select from a variety of protective devices, and add flair to both the interior and exterior. Conceived and engineered by the same experts who designed your Ram truck, you're assured of perfect fit, function and finish.

Further advantages of Mopar are wide-ranging. Mopar Express Lane Service minimizes waiting and downtime. The Mopar Vehicle Protection® Plan is the only extended protection backed by the manufacturer. The online record-keeping of your service records is a click away, through our Mopar Owner Connect web site—and it's also where you'll get additional vehicle information and exclusive money-saving offers as a preferred Ram owner.

Mopar support. It's all about keeping you happy and keeping your Ram 1500 in top-notch looks and condition. Check it out at MOPAR.COM

TRADESMAN®

Ready-to-work attitude with every economy you need (shown with optional RamBox® Cargo Management System)

POWERTRAIN

- 3.6L Pentastar® V6 Flex Fuel 24V Variable Valve Timing (VVT) engine/8-speed automatic (22B)
- 5.7L HEMI® V8 Multi-Displacement System (MDS) VVT engine/8-speed automatic (26B/27B)
- 3.0L EcoDiesel V6 engine/8-speed automatic (28B)

STANDARD FEATURES:

INTERIOR AMENITIES

- Heavy-duty vinyl 40/20/40 split bench seat
- Front armrest with three cup holders
- Power windows and locks (Quad Cab® and Crew Cab)
- 2nd-row in-floor storage bins (Crew Cab)
- Rear folding seat (Quad Cab and Crew Cab)
- Black vinvl floor covering
- Rear fixed window
- Tinted-glass windows

EXTERIOR FEATURES

- Black power heated mirrors (Quad Cab and Crew Cab)
- Incandescent taillamps
- Quad-halogen headlamps
- Black rear bumper
- Black front bumper

CAPABILITY & FUNCTIONALITY

- Electronic shift-on-the-fly part-time transfer case (4x4 only)
- Trailer Tow Wiring with 4- and 7-pin connector
- Class IV hitch receiver
- 26-gallon fuel tank (5' 7" and 6' 4" beds)
- 32-gallon fuel tank (8' bed; non-EcoDiesel models) Active Grille Shutters

SAFETY & SECURITY

- Six air bags¹⁸ including driver and front-passenger, side-curtain and front-seat side-mounted
- Electronic Stability Control (ESC)4

- Rearview day/night mirror
- Manual air conditioning
- Instrument cluster with 3.5-inch Driver Information Display
- Black instrument panel bezel
- 3.0 AM/FM radio
- Six-speaker audio system
- Media Hub with audio jack and remote USB port
- 12-volt auxiliary power outlet
- Black upper fascia
- Black grille
- Black door handles
- 17-inch steel wheels
- P265/70R17 BSW All-Season tires
- Locking tailgate
- Speed control
- Electronic power rack and pinion steering
- Front heavy-duty shock absorbers
- Rear heavy-duty shock absorbers
- Front stabilizer bar
- Antilock 4-wheel disc brakes
- Sentry Key® Theft Deterrent System
- Tire Pressure Monitoring System with display

Numbers in Black boxes reflect max ratings. 1. Payload and Max Trailer Weights are estimated values. 2. All weights are estimated values. 2. All weights are estimated values as specified in SAE 12807. 6. Payload and Trailer Weight Rating are mutually exclusive. 7. 6AWRs, 6VWRs and 6CWRs should never be exceeded. 8. The recommended tongue weight for a conventional hitch is 10 percent of the gross trailer weight. The maximum tongue weight for Class IV hitch receiver is limited to 1,100 lb. 9. Weight-distributing hitch is recommended for trailers over 5,000 lb.

DEALER EPROCESS

___AMERICA'S ___ LONGEST-LASTING PICKUPS.

1 Based on IHS Automotive VIO registration data for all brands of GVW 1 – 3 pickup trucks continuously sold in the U.S. since 1988, Dodge and Ram have the highest overall percentage still on the road. 2 Based on Standard Pickup class. EPA estimated 29 highway mpg based on EcoDiesel V6 4x2. Actual results may vary. 3 Based on latest available competitive information. Class based on light-duty pickups. 4 No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. 5 Always look before proceeding, electronic drive aid is not a substitute for conscientious driving; always be aware of your surroundings. 6 SiriusXM subscriptions for audio and data services are sold by SiriusXM to follow your trial subscription. If you decide to continue listening after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel, you must call SiriusXM at 1-866-635-2349. See the SiriusXM Customer Agreement for complete terms and more information at siriusxm.com. All fees and programming subject to change. Your equipment and features for SiriusXM services will vary depending upon the vehicle you select and may be limited in select markets. 7 Wi-Fi subscription required. This feature is not intended for use by the driver while the vehicle is in motion. Always drive carefully. 8 Based on Standard Pickup class. Fuel economy based on EPA estimated 29 highway mpg on EcoDiesel V6 4x2. Actual results may vary. Torque comparison based on latest available competitive information. 9 Based on EPA estimated 29 highway mpg on Ram 1500 EcoDiesel V6 4x2 and standard 26-gal. fuel tank. Actual results may vary. 10 Transferable. See dealer for complete details and a copy of the 5-Year/100,000-Mile Diesel Powertrain Limited Warranty. 11 Transferable. See dealer for complete details and a copy of the 5-Year/60,000-Mile Gas Powertrain Limited Warranty. 12 Vehicle must be within the United States, have network coverage and must be registered with Uconnect Access with an active subscription that includes the applicable feature and you must fulfill minimum subscription requirements. It must also be equipped with features that enable remote commands, such as keyless entry, and must be in active and usable cellular range. The Uconnect Access App must be installed and launched on your mobile device to use these remote commands. Remote features are available only on vehicles that are properly equipped. Check state and local laws regarding the use of remote start systems. 13 Siri® Eyes Free requires an iPhone® mobile device equipped with the Siri feature. Certain features not available while the vehicle is in motion. iPhone must be within active cellular range. Customer's existing iPhone data rates apply to Internet-supported features. 14 Requires a mobile phone equipped with the Bluetooth Hands-Free Profile. Visit UconnectPhone.com for system and device compatibility. 15 The 9-1-1 Call button will connect you directly with Emergency Assistance. If you accidentally press the button, you have 10 seconds to cancel the call by either pressing the 9-1-1 button on the rearview mirror or the Cancel button on the Uconnect touchscreen. 16 Provides direct-dial access to Roadside Assistance Service. Vehicle must be registered with Uconnect Access with an active subscription that includes the applicable feature. Additional roadside assistance charges may apply. Check warranty for details. 17 Wi-Fi subscription required. Vehicle must be registered with Uconnect Access and fulfill minimum subscription requirements. Vehicle must be properly equipped and in active and usable cellular range for Wi-Fi usage. Wi-Fi Hotspot does not enable direct communication between multiple in-vehicle devices. Factors affecting the performance of Wi-Fi Hotspot include: cellular network, signal strength and quality, time of day, number of channels used by the service provider, type of connection, number of clients using Wi-Fi Hotspot and client device. This feature is not intended for use by the driver while the vehicle is in motion. Always drive safely, 18 The Advanced Front Air Bags in this vehicle are certified to the new U.S. Federal regulations for advanced air bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. 19 Uconnect Access is available only on equipped vehicles purchased within the contiguous United States and AK. Services can only be used where coverage is available, see coverage map for details. For a complete list of Uconnect Access services, please visit http://www.driveuconnect.com/features/uconnect_access/packages. 20 Voice Text Reply and Voice Texting features require a compatible mobile device enabled with Bluetooth Message Access Profile (MAP). iPhone and some other smartphones do not currently support Bluetooth MAP. Visit UconnectPhone.com for system and device compatibility. Ensure MAP is ON and incoming message notification is enabled. Vehicle must be registered for Uconnect Access and you must fulfill minimum subscription requirements. Also requires the use of a compatible smartphone that supports text messaging and Bluetooth. Visit UconnectPhone.com for system and device compatibility.
